IMAGE AND ENTRY REQUIREMENTS

This exhibition is open to anyone; however, an entry may be rejected when the Sponsor or the Exhibition Organizers, in their reasonable discretion, believes the entry does not conform to exhibition rules and these Conditions of Entry. Membership in any photographic organization is not required.

Image Creation

Entries must originate as photographs (image-captures of objects via light sensitivity) made by the entrant on photographic emulsion or acquired digitally.

Certification:

By virtue of submitting an image, the entrant certifies the work as his or her own (.Images may not incorporate elements produced by anyone else (for example: clip art, images or art by others downloaded from the Internet). Aliases are not allowed. The entrant permits the sponsors to reproduce all or part of the entered material free of charge for publication and/or display in media related to the exhibition. This may include low resolution posting on a website. Note: Entrants who indicate that their images may not be reproduced or used "will not be eligible for awards" or inclusion in audio-visuals of the exhibition "and could be subject to disqualification" by the exhibition sponsors. The exhibition assumes no liability of any misuse of copyright

Alteration and Computer Generation Subject to Divisional restrictions (particularly Nature, Photo Travel, and Photojournalism) images may be altered, either electronically or otherwise, by the maker. Adjustments to enhance images or creatively modify images are allowed providing the underlying photograph is retained in a way that is obvious to the viewer. Images may not be constructed entirely with a computer, and must be the sole work of the author. All parts of the image have to be photographed by the author who is holding the copyright of all works submitted

Re-use of Accepted Images: Once an image has been accepted in a FIAP exhibition, any identical image, or near identical image, may not, in future, be entered or re-entered in any section of the same Division Star Ratings class in that exhibition regardless of media, format, or title; may not be re-titled for entry into any other FIAP exhibition, including translation into another language.

Entry: An Entry consists of, up to and including, four (4) images entered by a single Entrant into the same Section. An entrant may only enter a specific Section once.

Titles:

Each image must have a unique title. That unique title must be used for entry of that image or of an Identical Image into any and all FIAP exhibitions. Titles must be 35 characters or fewer. No titles may be visible to the judges, and nothing in the image may identify the maker. Titles must not include file extensions such as .jpg or .jpeg (or any other camera capture filenames), or words such as "untitled" or "no title". Titles may not consist solely of numbers.

Color and Monochrome:

Color and Monochrome images from the same capture that share substantial pictorial content in common will be considered the same image and must be given the same title.

Image Specifications

The Exhibition will be conducted in accordance with the rules of FIAP

An entrant's images will not be presented to the judges consecutively. An entrant's four images will be distributed throughout four rounds of judging in that section. Distribution of images will be in the same round order as submitted by the entrant.

An image may be entered in only one section where acceptances of that image in multiple sections would be eligible for the same star path

Maximum Horizontal Dimension 1920px

Maximum Vertical Dimension is 1080px

Resolution 300dpi

Maximum allowed file size 2MB

PICTURES CREATED BY ARTIFICIAL INTELLIGENCE ARE NOT ALLOWED IN THIS SALON! It is reminded that all parts of the image have to be photographed by the author who is holding the copyright of all works submitted. Offenders will be sanctioned for life!

Judging Method

Judging will be held remotely as per the rules laid out by FIAP. Judges will use their personal monitors as per FIAP recommendations to evaluate the images.

DATA PROTECTION

By entering this exhibition, you are explicitly consenting to the personal details you have supplied, including email addresses, being held, processed and used by the exhibition organizers for purposes associated with this exhibition. You also explicitly consent to such information being sent to organizations that have accorded official recognition, patronage or accreditation to this exhibition. You acknowledge and accept that entering this exhibition means that the status and results of your entry may be made public.

Breaches of Rules

The mention that by the sole act of submitting his/her images or files to a salon under FIAP Patronage, the entrant accepts without exception and with no objection the following terms: - that the submitted images can be investigated by FIAP to establish if these obey to FIAP regulations and definitions even if the entrant is not a member of FIAP, that FIAP will use any means at its disposal for this undertaking, - that any refusal to cooperate with FIAP or any refusal to submit the original files as captured by the camera, or failure to provide sufficient evidence, will be sanctioned by FIAP, - that in case of sanctions following the non-compliance with FIAP regulations, the name of the entrant will be released in any form useful to inform the breaches of the rules. It is recommended to leave the EXIF data in the submitted files intact in order to ease eventual investigations. If, at any time, it is determined in the reasonable discretion of the exhibition organizer or the judges before, during, or after the judging of an exhibition that an entrant has submitted

entries where one or more images may fail to comply with these Conditions of Entry, including the stated definitions, the exhibition organizers reserve the right to delete the entry from the exhibition and void any or all acceptances or awards in connection with the exhibition. Fees may be forfeited or refunded in these circumstances. The entrant acknowledges that the decision of the exhibition organizers or the judges is final

FIAP definition of Monochrome

A black and white work fitting from the very dark grey (black) to the very clear grey (white) is a monochrome work with the various shades of grey. A black and white work toned entirely in a single colour will remain a monochrome work able to stand in the black and white category; such a work can be reproduced in black and white in the catalogue of a salon under FIAP Patronage. On the other hand a black and white work modified by a partial toning or by the addition of one colour becomes a colour work (polychrome) to stand in the colour category; such a work requires colour reproduction in the catalogue of a salon under FIAP Patronage

FIAP Nature Definition

Content Guidelines

Nature photography records all branches of natural history except anthropology and archaeology. This includes all aspects of the physical world, both over water and underwater.

Nature images must convey the truth of the scene. A well-informed person should be able to identify the subject of the image and be satisfied that it has been presented honestly and that no unethical practices have been used to control the subject or capture the image. Images that directly or indirectly show any human activity threatening a living organism's life or welfare are not allowed.

The most important part of a Nature image is the nature story it tells. High technical standards are expected, and the image must look natural.

- Objects created by humans, and evidence of human activity, are allowed in Nature images only when they are a necessary part of the Nature story.
- Photographs of human-created hybrid plants, cultivated plants, feral animals, domesticated animals, human-created hybrid animals, and mounted or preserved zoological specimens are not allowed.
- Photographs made where the scene is natural and the animal is unharmed in a carefully managed environment, such as Zoo, rescue centers, and ethically managed natural environment farms are permitted.
- Attracting or controlling subjects through the use of food or sound for the purpose of photographing them is not allowed. Maintained situations such as provided supplemental food due to hardship caused by weather conditions or other conditions beyond the animals' control, where photography is incidental to the feeding of the animal does not fall under this provision.
- Controlling live subjects by chilling, anaesthetic, or any other method of restricting natural movement for a photograph is not allowed.
- Human-made elements shall be permitted under the following circumstances:
 - a) When they are an integral part of the nature story, such as a songbird singing atop a fence post a manmade object used as nest material, or a weather phenomenon destroying a man-made structure.
 - b) When they are a small but unavoidable part of the scene, such as an unobtrusive footprint or track in the background.
 - c) Scientific tags, collars, and bands are specifically allowed.

When photographing at a zoo, sanctuary, or rehabilitation centre, it would be construed that the photographer ensured that it's properly accredited and conforms to best practices.

Wildlife Photography

In addition to the restrictions on nature photography, to be eligible for any Wildlife award and acceptance,

images must meet the following conditions:

- Zoological organisms must be living free and unrestrained in a natural or adopted habitat of their own choosing.
- Images of zoological organisms that have been removed from their natural habitat, are in any form of captivity or are being controlled by humans for the purpose of photography are not allowed.
- Botanical organisms may not be removed from their natural environment for the purpose of photography.
- Images that have been staged for the purpose of photography are not allowed.

Editing Guidelines:

Processing or editing must be limited to making the image look as close to the original scene as possible, except that conversion to grayscale monochrome is allowed.

Allowed editing techniques:

- Cropping, straightening and perspective correction
- Removal or correction of elements added by the camera or lens, such as dust spots, noise, chromatic aberration and lens distortion
- Global and selective adjustments such as brightness, hue, saturation and contrast to restore the appearance of the original scene
- Complete conversion of colour images to grayscale monochrome
- Blending of multiple images of the same subject and combining them in camera or with software (exposure blending or focus stacking)
- Image stitching - combining multiple images with overlapping fields of view that are taken consecutively (panoramas).

Editing techniques that are not allowed:

- Removing, adding to, moving or changing any part of an image, except for cropping and straightening.
- Adding a vignette during processing
- Blurring parts of the image during processing to hide elements in the original scene
- Darkening parts of the image during processing to hide elements in the original scene
- All conversions other than to complete grayscale monochrome
- Conversion of parts of an image to monochrome, or partial toning, desaturation or over-saturation of colour

World in Focus Definition

Just as with travel and tourism pictures, this section encompasses the full range of photographic genres from architecture, culture, events, food, landscape, portraits, etc. A "WORLD IN FOCUS" image expresses the spirit of an era, the essence of a place or of a culture whether it is shown in an authentic scene or whether it is arranged. Digital manipulation to optimize an image in terms of fine tuning of levels and colours is allowed as long as the image looks natural. The same applies for removal of dust or digital noise.

Techniques that add, relocate, replace, or remove any element of the original image, except by cropping, are not permitted.
