### **Report Card Notification:**

All participants will receive report card notifications via e-mail.

The results of the exhibition will also be published on the website.

## FIP DEFINITION OF DIVISIONS AND SECTIONS

### **PID Colour :**

The subject matter is unrestricted for PID images in separate colour and monochrome section. There may be a theme specified for some PID Salons and the exhibition's definition of the theme should be consulted with the organizer.

In accordance with Para II.8 E of FIAP DOC 040/2023 E "Pictures created by artificial intelligence are not allowed in this salon! All parts of the image have to be photographed by the author who is holding the copyright of all works submitted. Offenders will be sanctioned for life! "

All elements of the image must have been shot by the author. All parts of the image including graphics have to be photographed by the author holding copyright of his submitted works. Use of some filters available on net is permissible.

Same images either colour or mono in two different section of the same Salon will result in disqualification for both the images.

### **Monochrome Definition:**

An image is considered to be Monochrome only if it gives the impression of having no colour (i.e. contains only shades of grey which can include pure black and pure white) OR it gives the impression of being a greyscale image that has been toned in one colour across the entire image. (For example by Sepia, red, gold, etc.)

### **Nature Photography Definition:**

Nature Photography is restricted to the use of the photographic process to depict all branches of natural history, except anthropology\* and archaeology\*, in such a fashion that a well-informed person will be able to identify the subject material and certify its honest presentation. (Suggested\*: An example will be helpful to the New Jury).

The story telling value of a photograph must be weighed more than the pictorial quality while maintaining high technical quality.

1. Human elements must not be present, except where those human elements are integral parts of the nature story such as nature subjects, like barn owls or storks, adapted to an environment modified by humans, or where those human elements are in situations depicting natural forces, like hurricanes or tidal waves.
2. Scientific bands, scientific tags or radio collars on wild animals are permissible.
3. Photographs of human created hybrid plants, cultivated plants, feral animals, domestic animals, or mounted specimens are ineligible.

4. Techniques that add, relocate, replace or remove any element of the original image, except by cropping, are not permitted. Conversion to infrared, either by digital technique or by original technique is not allowed. Stitching of two or more image is not permitted.
5. Complete conversion to grey scale Monochrome is allowed but without partial or complete toning.
6. It is perfectly legal to remove dust, flares or digital noise. Minor global colour / tone correction is OK as long as it is not selective and the final image looks natural but not dramatic. Dodge and Burn tool is for you only but use it judiciously. Selective darkening of background is prohibited. Techniques like panning, slow shutter speed or in-exposure zooming are part of your creativity. Use of filters like Polarizers and NDs are ok.
7. Drone Photography in the National Parks of India is illegal except with prior written permission from the concerned authorities. Drone images of Wild animals will be disqualified.
8. Welfare of the subject is extremely important. Use of live bait is totally prohibited. Relocated nest is a big NO NO and jury members should not award Nest images.

Images entered in Nature section meeting the Nature Photography Definition above can have landscapes, geologic formations, weather phenomena, and extant organisms as the primary subject matter. This includes images taken with subjects in controlled conditions, such as zoos, game farms, botanical gardens, aquariums and any enclosure where the subjects are totally dependent on man for food.

## **Wildlife**

Where exhibitions or competitions have a Wildlife Section or are giving a Wildlife Medal the following applies:

Images entered in Wildlife Sections meeting the Nature Photography Definition above are further defined as one or more extant zoological or botanical organisms free and unrestrained in a natural or adopted habitat.

Landscapes, geologic formations, photographs of zoo or game farm animals or of any extant zoological or botanical species taken under controlled conditions are not eligible in Wildlife sections.

Wildlife is not limited to mammals, birds and insects. Marine subjects and botanical subjects (including fungi and algae) taken in the wild are suitable wildlife subjects, as are carcasses of extant species.

## **NEW POLICY FOR FIP RECOGNIZED SALON ON PTD & WIF SECTION**

1. Organisers only seeking FIP approval will be free to choose from PTD and or WIF and acceptances and awards received will be valid for FIP distinctions
2. Organisers seeking FIP and FIAP approval will only get approval for WIF.
3. Organisers seeking FIP, FIAP as well as PSA can have approval of both sections but for FIAP only WIF will count.

## Photo Travel guideline for FIP:

1. A travel image depicts features of a culture, place or people as found naturally, anywhere in the world.
2. Portraits, close-up shots, and images of groups or objects should contain contextual elements that reflect the surrounding environment or location ensuring that the image doesn't appear staged or artificially arranged.
3. The image should not be a SET UP image and it should not be a directed image.
4. It should not be from a PHOTO WORKSHOP where a troupe dances for the workshop organizer or HORSES are made to run in dust or water or an individual shows his acrobatics on payment of a fee.
  - a. Many monasteries have religious festivals with dances etc and it is perfectly legal to submit such images though you may have paid an entry fee. Same is true for ballet and other stage shows.
5. Images shot at fairs where the subject is obviously posing for you, with or without payment, is only good for pictorial section. On the other hand a candid image is good for PT section. 28 VIEWFINDER FEBRUARY, 2024
6. Techniques that add, relocate, replace or remove any element of the original image, except by cropping, are not permitted. Conversion to infrared, either by digital technique or by original technique is not allowed. Stitching of two or more image is not permitted.
7. Complete conversion to grey scale Monochrome is allowed but without partial or complete toning.
8. Digital correction of distortion is acceptable.
9. It is perfectly legal to remove dust, flares or digital noise. Minor global colour / tone correction is OK as long as it is not selective and the final image looks natural but not dramatic. Dodge and Burn tool is for you only but use it judiciously. Correction of perspective is perfectly legal. Techniques like panning, slow shutter speed or in exposure zooming are part of your creativity. Filters like Polarizers and NDs are ok but star effect or rainbow filters are illegal.
10. Drone photography is OK as long it is legally permissible in that part of the world. In India use of DJI Mavic Mini model of Drone is perfectly legal, except in areas where Drone Photography is prohibited by the authorities like National Parks etc.
11. Finally, be sensitive to the community or people whom you are shooting. Care for your subjects and care for your fellow photographers as well. If someone doesn't wish to be photographed, please respect the person's feelings and greet her or him with a sweet smile before parting ways.

## The New FIAP Definition for “World in Focus”

Just as with travel and tourism pictures, this section encompasses the full range of photographic genres from architecture, culture, events, food, landscape, portraits, etc. A “WORLD IN FOCUS” image expresses the spirit of an era, the essence of a place or of a culture whether it is shown in an authentic scene or whether it is arranged. Digital manipulation to optimize an image in terms of fine tuning of levels and colours is allowed

as long as the image looks natural. The same applies for removal of dust or digital noise. Techniques that add, relocate, replace, or remove any element of the original image, except by cropping, are not permitted.

### **Photojournalism Definition:**

1. Photojournalism entries should be images with informative content and emotional impact, reflecting the human presence in our world. The journalistic (story-telling) value of the image shall receive priority over pictorial quality. In the interest of credibility, images that misrepresent the truth, such as those from events or activities specifically arranged for photography or of subjects directed or hired for photography, are not eligible.
2. Techniques that add, relocate, replace or remove any element of the original image, except by cropping, are not permitted. The only allowable modifications are removal of dust, scratches or digital noise, restoration of the existing appearance of the original scene, sharpening that is not obvious, and conversion to grey scale monochrome. Derivations, including infrared, are not eligible. All images must look natural.
