FIAP Definition of Monochrome

A black and white work fitting from the very dark grey (black) to the very clear grey (white) is a monochrome work with the various shades of grey. A black and white work toned entirely in a single colour will remain a monochrome work able to stand in the black and white category; such a work can be reproduced in black and white in the catalogue of a salon under FIAP Patronage. On the other hand a black and white work modified by a partial toning or by the addition of one colour becomes a colour work (polychrome) to stand in the colour category; such a work requires colour reproduction in the catalogue of a salon under FIAP Patronage .

Greyscale Monochrome images may be entered for Nature and Photo Travel but toned images are not permitted for these sections.

FIAP Nature Definition

Nature photography records all branches of natural history except anthropology and archaeology. This includes all aspects of the physical world, both animate and inanimate, that have not been made or modified by humans.

Nature images must convey the truth of the scene that was photographed. A well-informed person should be able to identify the subject of the image and be satisfied that it has been presented honestly and that no unethical practices have been used to control the subject or capture the image. Images that directly or indirectly show any human activity that threatens the life or welfare of a living

organism are not allowed.

The most important part of a Nature image is the nature story it tells. High technical standards are expected and the image must look natural. Adding a vignette or blurring the background during processing is not allowed.

Objects created by humans, and evidence of human activity, are allowed in Nature images only when they are a necessary part of the Nature story.

Photographs of human-created hybrid plants, cultivated plants, feral animals, domesticated animals, human-created hybrid animals and mounted or preserved zoological specimens are not allowed.

Images taken with subjects under controlled conditions, such as zoos, are allowed.

Controlling live subjects by chilling, anaesthetic or any other method of restricting natural movement for the purpose of a photograph is not allowed.

No modification that changes the truth of a Nature image is allowed. Images may be cropped but no other technique that removes, adds or moves any part of the image is allowed.

Techniques that remove elements added by the camera, such as dust spots, digital noise and lens flare are allowed.

Complete conversion of colour images to greyscale monochrome is allowed. Partial conversion, toning and infrared captures or conversions are not allowed. Images of the same subject that are combined in-camera or with software by focus stacking or exposure blending are allowed. Multiple images with overlapping fields of view that are taken consecutively and combined in-camera or with software (image stitching) are allowed.

World in Focus

The New FIAP Definition for "World in Focus" Just as with travel and tourism pictures, this section encompasses the full range of photographic genres from architecture, culture, events, food, landscape, portraits, etc. A "WORLD IN FOCUS" image expresses the spirit of an era, the essence of a place or of a culture whether it is shown in an authentic scene or whether it is arranged. Digital manipulation to optimize an image in terms of fine-tuning of levels and colours is allowed as long as the image looks natural. The same applies for removal of dust or digital noise. Techniques that add, relocate, replace, or remove any element of the original image, except by cropping, are not permitted.

Breaches of Rules

If, at any time, it is determined in the reasonable discretion of the salon organizer or the judges before, during, or after the judging of an salon that an entrant has submitted entries where one or more images

may fail to comply with these Conditions of Entry, including the stated definitions, salons, on behalf of the judges, are allowed to request unedited or raw files of the submitted image

In order to ensure that images comply with the Conditions of Entry and definitions, the salon organizers may carry out reasonable measures to verify that:

- a) the images are the original work of the entrant and
- b) the images comply with the rules and definitions as set out in these Conditions of Entry

These steps include, but are not limited to, questioning any entrant, requiring the submission of RAW files or other digital files representing the original capture of the submitted image(s), confronting the entrant with evidence that one or more submitted images fails to comply with the Conditions of Entry (also known as Entry Rules), and offering the entrant a reasonable opportunity to provide counter evidence to refute the salon organizer's evidence by a set deadline. Such entries that are not cleared or are still questionable after the entrant has presented evidence may be considered in breach of these Conditions of Entry, and declined. Such entries may be referred to FIAP/FIP for further investigation of possible ethics violations

If another party is submitting images on the entrant's behalf, the entrant will still be held responsible for adhering to these Conditions of Entry (Entry Rules) **and will be subject to penalties for any violations** to these Conditions of Entry.

If another party is processing images for an entrant or submitting images on the entrant's behalf, the entrant will still be held responsible for adhering to all Conditions of Entry including the specific conditions in the relevant definitions.

Notice:

When entrants fill in the Entry Form to submit an entry they will see the following feature to affirm they have read these Conditions of Entry

I hereby expressly agree to FIAP document 018/2017 « Conditions and regulations for FIAP Patronage » and FIAP document 033_2021 « [Sanctions for breaching FIAP regulations and the red list](#) ». I am particularly aware of chapter II « Regulations for International photographic events under FIAP patronage » of [FIAP document 018/2017](#), dealing under Section II.2 and II.3 with the FIAP participation rules, the sanctions for breaching FIAP regulations and the red list.
