RULES & REGULATIONS

Conditions of Entry

- All Acceptances are eligible for statistics applicable to FIAP, GPU & FIP (all 6 sections) as well as PSA star rating.
- **Monochrome images should not be entered in Open Colour section and vice-versa except Nature, Photo Travel.**
- Entry is open to all photographers, amateur and professional, worldwide.
- The maximum entry in each section per author is 4 (four).
- An entrant's four images will be presented to the judges randomly.
- **Same/similar image must NOT be entered in more than one sections - this includes altered and unaltered images, if submitted both the images will be disqualified.**
- Entries must originate as photographs, (image captured of objects via light sensitivity), made by the entrant on photographic emulsion or acquired digitally.
- All final work must be digital file for Digital sections (.jpeg ONLY).
- By virtue of submitting and entry, the entrant certifies the work as his own and permits the sponsors to reproduce all or part of the entered material free of charge for publication and/or display in media related to the exhibition. This may include low resolution posting on a website.
- The exhibition assumes no liability of any misuse of copyright.
- At the time of judging, entrant's names/name of works WILL not be available to Jury Members.
- Please limit titles to 35 characters.
- All imagery **MUST** be the total and exclusive work of the submitting author and may not include any element that was originated by or is the copyright of other photographers.
- For awarded/ accepted images, RAW/unedited jpeg file may be requested. If requested, in case of non-compliance, award/ acceptance will be denied.
- The right of reproduction in relation to the exhibition, including digital representation, will be assumed upon entering.
- The exhibition is open to anyone; however, an entry may be rejected when the sponsoring organization or its agent, in its reasonable discretion, believes the entry does not conform to the exhibition rules and conditions.
- **Images AWARDED/ACCEPTED in PREVIOUS PABEL SALONS, either National or International, if entered again, SHALL BE SUMMARILY REJECTED.**
- ENTRIES RECEIVED WITHOUT ENTRY FEES WILL NOT BE JUDGED. NO CORRESPONDENCE SHALL BE ENTERTAINED IN THIS REGARD.

- THE SUBMISSION OF AN ENTRY SIGNIFIES ACCEPTANCE OF THESE RULES & CONDITIONS.
- All PAID entrants shall receive a DIGITAL PDF Catalogue via email. Catalogue shall also be available at our website for downloading.
- RESULTS shall be sent via email to all paid entrants. Results shall also be available at our site for downloading.
- All entries shall conform to the stricter of these definitions for acceptances to be validated by the Organization granting recognition or patronage.
- All accepted images will receive E-acceptance certificate (pdf).
- **Members of PHOTOGRAPHIC ASSOCIATION OF BELGHORIA are NOT ALLOWED to participate in the Salon.**

All about Your Entry:

- ❖ All sections are recognized by **FIAP, GPU & FIP**
- ❖ All acceptances FIAP, FIP & GPU for FIAP/FIP/GPU Distinctions. Acceptance certificate will be sent to all successful entrants via email.
- ❖ Our Catalogue will include a listing of accepted images for the exhibition for all sections and will include all award-winning images with statistics.

IMAGE SPECIFICATION (DIGITAL)

- Entrants may enter up to 4 projected images in each section.
- Maximum size of any image 1920 pixels on the horizontal side 1080 pixels vertical resolution of 300dpi, (Maximum Size 2MB, compression 10-12), 8 bit, sRGB and saved as a large .jpeg file to be titled as per entry form for Digital sections.
- All entries to be made via our electronic entry system accessible from www.pabel.in
- For any questions, please email salon@pabel.in
- Digital Images will be judged in Laptop.

IMAGE SPECIFICATION (SMALL PRINT)

- Entrants may submit up to 4 Small prints in each section.
- Longer side of any image should not be more than 12 inches and should not be less than 10 inches. The shorter side should not be more than 8 inches and should not be less than 7 inches.
- All images should be uploaded in digital format as in 1024px x 768px x 72 dpi within 1mb during filling of entry form. Barcode will be generated which should be fixed at the back of image bottom right hand corner.

- Prints should be properly packed to avoid damage and should be sent to the following address within 3rd July 2024:

DIPANKAR DASGUPTA
12, NRITYA GOPAL CHATTERJEE LANE,
KOLKATA, WEST BENGAL; INDIA
Pin – 700037; Mobile: 9038678005

GENERAL CONDITIONS

- The exhibition is open to anyone; however, an entry may be rejected when the sponsoring organization or its agent, in its reasonable discretion, believes the entry does not conform to the exhibition rules and conditions.
- An entrant's images will not be presented to the judges consecutively. An entrant's four images will be distributed throughout four rounds of judging in that section. Distribution of images shall be in the same round order as submitted by the entrant.
- Entries must originate as photographs (image-captures of objects via light sensitivity) made by the entrant on photographic emulsion or acquired digitally. By virtue of submitting an entry, the entrant certifies the work as his own (aliases are not permitted).
- ***Pictures created by artificial intelligence (AI) are not allowed in this salon!***
- The entrant permits the sponsors to reproduce all or part of the entered material free of charge for publication and/or display in media related to the exhibition. This may include low resolution posting on a website.
- **Each awarded work can only get one single prize. Each salon participant cannot receive more than one award per section in the same salon. Furthermore, it is forbidden to award identical or similar works entered by the same author or by a different author, in the same event.**
- Note: Entrants who indicate that their images may not be reproduced or used "***will not be eligible for awards***" or inclusion in the exhibition "and could be subject to disqualification" by the exhibition sponsors.
- The exhibition assumes no liability of any misuse of copyright. Images may be altered subject to Nature, Photo Travel and Street divisional restrictions. All final work must be on print/ electronic file.
- No title or identification of the maker shall be visible anywhere on the face of an image.
- Each image must have a unique title. Once an image has been accepted in a PSA Recognized exhibition, that same image, or a like "in camera" or a "reproduction" duplicate of that image.
- May not be entered or re-entered in any section of the same Division Star Ratings class in that exhibition regardless of media, format, or title.
- May not be re-titled for entry in any other FIAP/FIP Recognized exhibition, including translation into another language.
- An image may be entered in only one section where acceptances of that image in multiple sections would be eligible for the same star path. ***Images entered in one section cannot be entered in any of the other sections either altered or unaltered.***
- The jury's decisions are final. No correspondence shall be entertained.
- Words such as "Untitled" and "No Title" are not acceptable as part or all of an image's title, nor are camera capture filenames.
- Concerning digital entries, we recommend that authors should preserve intact, with no alteration, the original metadata of images.
- By entering this exhibition, you are explicitly consenting to the personal details you have supplied, including email addresses, being held, processed and used by the exhibition organizers for purposes associated with this exhibition. You also explicitly

consent to such information being sent to organizations that have accorded official recognition, patronage or accreditation to this exhibition. You acknowledge and accept that entering this exhibition means that the status and results of your entry may be made public.

FIAP Notice

In order to have legal authority on those who do not respect the rules of FIAP, this salon requires participants to confirm by ticking a box next to which the following text:

“I hereby expressly agree to FIAP document 040/2023 « Conditions and regulations for FIAP Patronage » and FIAP document 038/2023 « Sanctions for breaching FIAP regulations and the red list ». I am particularly aware of chapter II « Regulations for International photographic events under FIAP patronage » of FIAP document 040/2023, dealing under Section II.2 and II.3 with the FIAP participation rules, the sanctions for breaching FIAP regulations and the red list.”

Drone Policy

One of the tenets of photography, is that the safety and well-being of the subject, photographer and surroundings is of paramount importance over the capturing of the photograph. The purpose of this section is to prevent any interference with other individuals or animals which will or may cause a disturbance in their normal activity or disrupt the way an individual or animal interacts with its environment.

1. May not fly a drone above people for the purpose of photographing their activity, unless permission is granted in writing.
2. May not fly or photograph animals in their natural habitat, especially nesting areas and locations where the animal is already under stress (winter survival, migratory feeding and protecting young).

Photographing scenery/landscapes is permissible.

May not fly or photograph in any designated wilderness area.

FIAP REVIEW OF SUSPECTED NON-COMPLIANCE WITH REGULATIONS AND DEFINITIONS

Each author whose image shows any suspicions about the compliance with FIAP regulations or definitions can be requested by the organizer or by FIAP, to submit the original file (file containing the data recorded by the sensor, if so, the RAW file) plus the file of the image immediately before and immediately following the questionable image. If he/she failed to provide what is required, he/she can be sanctioned.

By the sole act of submitting his/her images or files to PHOTOGRAPHIC ASSOCIATION OF BELGHORIA as a salon under FIAP Patronage, the entrant accepts without exception and with no objection the following terms:

- * **that the submitted images can be investigated by FIAP to establish if these obey to FIAP regulations and definitions even if the entrant is not a member of FIAP,**
- * **that FIAP will use any means at its disposal for this undertaking,**
- * **that any refusal to cooperate with FIAP or any refusal to submit the original files as captured by the camera, or failure to provide sufficient evidence, will be sanctioned by FIAP,**

- * **that in case of sanctions following the non-compliance with FIAP regulations, the name of the entrant will be released in any form useful to inform the breaches of the rules,**
- * **Concerning digital entries, FIAP recommends that authors should preserve intact, with no alteration, the original metadata of images. In case of contestation for incompliance with FIAP regulations the fact of not being able to access this important data could mean that the author could be sanctioned,**
- * **Persons who are found guilty of plagiarism are excluded lifelong from FIAP activities.**

BREACH OF CONDITION OF ENTRY

If the exhibition determines before, during, or after the judging that an entrant has submitted entries where one or more images fail to comply with these Conditions of Entry, including the stated definitions, the exhibition reserves the right and discretion to delete the entry from the exhibition and void any or all acceptances or awards. Fees may be forfeited in these circumstances. In order to ensure that images comply with the Conditions of Entry and definitions, the exhibition may carry out checks on the images to make sure that:

- the images are the original work of the entrant and
- the images comply with the rules and definitions as set out in these Conditions of Entry.

This may involve asking the entrant to provide originally captured image(s), with EXIF data intact, by a set deadline. The questioned image(s) of any entrant failing to comply with such a request for the original image(s) may be considered in breach of these Conditions of Entry, and declined. Such entries may be referred to FIAP & FIP or any other patronage body for further investigation of possible ethics violations. FIAP & FIP or any other patronage body retains the right to investigate in any way all complaints/suspensions of breaches of entry conditions, impose sanctions if deemed necessary, void the acceptances of any image found to violate the FIP rules, include the entrant's name on the list of sanctions provided to Exhibitions. Entrants automatically agree to these terms by the act of entering the Exhibition,

FIP DEFINITION OF DIVISIONS AND SECTIONS

PID Colour: The subject matter is unrestricted for PID images in separate colour and monochrome section. There may be a theme specified for some PID Salons and the exhibition's definition of the theme should be consulted with the organizer. **Use of major computer generated graphics is totally restricted except in Creative thematic section. Para II.8 E of FIAP DOC 018/2017 E.** All elements of the image must have been shot by the author. All parts of the image including graphics have to be photograph by the author holding copyright of his submitted works. Use of some filters available on net is permissible. Same images either colour or mono in two different section of the same Salon will result in disqualification for both the images.

Monochrome Definition: An image is considered to be Monochrome only if it gives the impression of having no colour (i.e. contains only shades of grey which can include pure black and pure white) OR it gives the impression of being a greyscale image that has been toned in one colour across the entire image. (For example by Sepia, red, gold, etc.).

Nature Photography definition: Nature Photography is restricted to the use of the photographic process to depict all branches of natural history, except anthropology* and archaeology*, in such a fashion that a well-informed person will be able to identify the subject material and certify its honest presentation. (Suggested*: An example will be helpful to the New Jury). The story telling value of a photograph must be weighed more than the pictorial quality while maintaining high technical quality.

1. Human elements must not be present, except where those human elements are integral parts of the nature story such as nature subjects, like barn owls or storks, adapted to an environment modified by humans, or where those human elements are in situations depicting natural forces, like hurricanes or tidal waves.
2. Scientific bands, scientific tags or radio collars on wild animals are permissible.
3. Photographs of human created hybrid plants, cultivated plants, feral animals, domestic animals, or mounted specimens are ineligible.
4. Techniques that add, relocate, replace or remove any element of the original image, except by cropping, are not permitted. Conversion to infrared, either by digital technique or by original technique is not allowed. Stitching of two or more image is not permitted.
5. Complete conversion to grey scale Monochrome is allowed but without partial or complete toning.
6. It is perfectly legal to remove dust, flares or digital noise. Minor global colour / tone correction is OK as long as it is not selective and the final image looks natural but not FIP DEFINITION OF DIVISIONS AND SECTIONS VIEWFINDER MARCH, 2022 23 dramatic. Dodge and Burn tool is for you only but use it judiciously. Selective darkening of background is prohibited. Techniques like panning, slow shutter speed or in-exposure zooming are part of your creativity. Use of filters like Polarizers and NDs are ok.
7. Drone Photography in the National Parks of India is illegal except with prior written permission from the concerned authorities. Drone images of Wild animals will be disqualified.
8. Welfare of the subject is extremely important. Use of live bait is totally prohibited. Relocated nest is a big NO and jury members should not award Nest images.

Images entered in Nature section meeting the Nature Photography Definition above can have landscapes, geologic formations, weather phenomena, and extant organisms as the primary subject matter. This includes images taken with subjects in controlled conditions, such as zoos, game farms, botanical gardens, aquariums and any enclosure where the subjects are totally dependent on man for food.

Wildlife

Where exhibitions or competitions have a Wildlife Section or are giving a Wildlife Medal the following applies: Images entered in Wildlife Sections meeting the Nature Photography Definition above are further defined as one or more extant zoological or botanical organisms free and unrestrained in a natural or adopted habitat. Landscapes, geologic formations, photographs of zoo or game farm animals or of any extant zoological or botanical species taken under controlled conditions are not eligible in Wildlife sections. Wildlife is not limited to mammals, birds and insects. Marine subjects and botanical subjects (including fungi and algae) taken in the wild are suitable wildlife subjects, as are carcasses of extant species.

World in focus guide line for FIP:

1. A travel image depicts features of a culture, place or people as found naturally, anywhere in the world.
2. Images of individuals or group must show their environment or location.
3. The image should not be a SET UP image and it should not be a directed image.
4. It should not be from a PHOTO WORKSHOP where a troupe dances for the workshop organizer or HORSES are made to run in dust or water or an individual shows his acrobatics on payment of a fee.
5. Many monasteries have religious festivals with dances etc and it is perfectly legal to submit such images though you may have paid an entry fee. Same is true for ballet and other stage shows.
6. Images shot at fairs where the subject is obviously posing for you, with or without payment, is only good for pictorial section. On the other hand a candid image is good for PTsection. 24 VIEWFINDER MARCH, 2022
7. Techniques that add, relocate, replace or remove any element of the original image, except by cropping, are not permitted. Conversion to infrared, either by digital technique or by original technique is not allowed. Stitching of two or more image is not permitted.
8. Complete conversion to grey scale Monochrome is allowed but without partial or complete toning.
9. Digital correction of distortion is acceptable.
10. It is perfectly legal to remove dust, flares or digital noise. Minor global colour / tone correction is OK as long as it is not selective and the final image looks natural but not dramatic. Dodge and Burn tool is for you only but use it judiciously. Correction of perspective is perfectly legal. Techniques like panning, slow shutter speed or in exposure zooming are part of your creativity. Filters like Polarizers and NDs are ok but star effect or rainbow filters are illegal.
11. Drone photography is OK as long it is legally permissible in that part of the world. In India use of DJI Mavic Mini model of Drone is perfectly legal, except in areas where Drone Photography is prohibited by the authorities like National Parks etc.
12. Finally, be sensitive to the community or people whom you are shooting. Care for your subjects and care for your fellow photographers as well. If someone doesn't wish to be photographed, please respect the person's feelings and greet her or him with a sweet smile before parting ways.

FIAP DEFINITIONS

OPEN (General): Entries must originate as photographs (image-capture of objects via light sensitivity) made by the entrant on photographic emulsion or acquired digitally. By virtue of submitting an entry, the entrant certifies the work as his/her own and permits the sponsors to reproduce all or part of the entered material free of charge for publication and/or display in media related to the exhibition. This may include low resolution posting on a website. The exhibition assumes no liability for any misuse of copyright. Images may be altered, either electronically or otherwise, by the maker except the restrictions stipulated in Nature, Photo Travel and Street sections.

MONOCHROME: An image is considered to be monochrome only if it gives the impression of having no colour (i.e. contains only shades of grey which can include pure black and pure

white) OR it gives the impression of being grey scale image that has been toned in one colour across the entire image (e.g. example by Sepia, red, gold etc.).

A grayscale or multi-coloured image modified or giving the impression of having been modified by partial toning, multi toning or by the inclusion of spot colouring does not meet the definition of Monochrome and shall be classified as Colour work.

WORLD IN FOCUS: Just as with travel and tourism pictures, this section encompasses the full range of photographic genres from architecture, culture, events, food, landscape, portraits, etc. A “WORLD IN FOCUS” image expresses the spirit of an era, the essence of a place or of a culture whether it is shown in an authentic scene or whether it is arranged. Digital manipulation to optimise an image in terms of fine tuning of levels and colours is allowed as long as the image looks natural. The same applies for removal of dust or digital noise. Techniques that add, relocate, replace, or remove any element of the original image, except by cropping, are not permitted. The only allowable adjustments are removal of dust or digital noise, restoration of the appearance of the original scene, and complete conversion to grayscale monochrome. Other derivations, including infrared, are not permitted. All images must appear natural.

Editing Guidelines

Processing or editing must be limited to making the image look as close to the original scene as possible.

Allowed editing techniques:

- Cropping, straightening and perspective correction.
- Removal or correction of elements added by the camera or lens, such as dust spots, noise, chromatic aberration and lens distortion.
- Global and selective adjustments such as brightness, hue, saturation and contrast to restore the appearance of the original scene.
- Complete conversion of color images to grayscale monochrome.
- Blending of multiple images of the same subject and combining them in camera or with software (exposure blending or focus stacking);
- Image stitching – combining multiple images with overlapping fields of view that are taken consecutively (panoramas);

Editing techniques that are not allowed:

- Removing, adding to, moving or changing any part of an image, except for cropping and straightening.
- Adding a vignette during processing.
- Blurring parts of the image during processing to hide elements in the original scene.
- Darkening parts of the image during processing to hide elements in the original scene.
- All conversions other than to complete grayscale monochrome.
- Conversion of parts of an image to monochrome, or partial toning, desaturation or over-saturation of colour.

The photographs should be reality based, like photo journalism and nature divisions. The objective of World on focus is to show the world as it is found naturally. The purpose is to guide the photographers towards making images that show how the world really is, rather than to arrange it and to manipulate images to obtain the best photographs.

Images from events or activities arranged specifically for photography, or of subjects directed or hired for photography are not permitted.

NATURE (FIAP):

Nature photography is restricted to the use of the photographic process to depict all branches of natural history, except anthropology and archaeology, in such a fashion that a well-informed person will be able to identify the subject material and certify its honest presentation. The story telling value of a photograph must be weighed more than the pictorial quality while maintaining high technical quality. Human elements must not be present, except where those human elements are integral parts of the nature story such as nature subjects, like barn owls or storks, adapted to an environment modified by humans, or where those human elements are in situations depicting natural forces, like hurricanes or tidal waves. Scientific bands, scientific tags or radio collars on wild animals are permissible. Photographs of human created hybrid plants, cultivated plants, feral animals, domestic animals, or mounted specimens are ineligible, as is any form of manipulation that alters the truth of the photographic statement.

No techniques that add, relocate, replace, or remove pictorial elements except by cropping are permitted. Techniques that enhance the presentation of the photograph without changing the nature story or the pictorial content, or without altering the content of the original scene, are permitted including HDR, focus stacking and dodging/burning. Techniques that remove elements added by the camera, such as dust spots, digital noise, and film scratches, are allowed. Stitched images are not permitted. All allowed adjustments must appear natural. Color images can be converted to greyscale monochrome. Infrared images, either direct-captures or derivations, are not allowed.

Images used in Nature Photography competitions may be divided in two classes: Nature and Wildlife. Images entered in Nature sections meeting the Nature Photography Definition above can have landscapes, geologic formations, weather phenomena, and extant organisms as the primary subject matter. This includes images taken with the subjects in controlled conditions, such as zoos, game farms, botanical gardens, aquariums and any enclosure where the subjects are totally dependent on man for food.

No bating images are allowed. Removal of birds from nest for the purpose of photography are not allowed.

Images entered in Wildlife sections meeting the Nature Photography Definition above are further defined as one or more extant zoological or botanical organisms free and unrestrained in a natural or adopted habitat. Landscapes, geologic formations, photographs of zoo or game farm animals, or of any extant zoological or botanical species taken under controlled conditions are not eligible in Wildlife sections. Wildlife is not limited to animals, birds and insects. Marine subjects and botanical subjects (including fungi and algae) taken in the wild are suitable wildlife subjects, as are carcasses of extant species.

Wildlife images may be entered in Nature sections of Exhibitions. No bating images are allowed. Removal of birds from the nest for the purpose of photography are not allowed.

Portrait (Colour/Monochrome): Photographs in this section can be submitted either in colour or in monochrome.

With the sole act of submitting his/her images or files to a salon under FIAP Patronage, the entrant accepts without exception and with no objection that the submitted images can be investigated by FIAP to establish if these obey to FIAP regulations and definitions even if the entrant is not a member of FIAP; that FIAP will use any means at its disposal for this undertaking; that any refusal to cooperate with FIAP or any refusal to submit the original files as captured by the camera, or failure

to provide sufficient evidence, will be sanctioned by FIAP and that in case of sanctions following the non-compliance with FIAP regulations, the name of the entrant will be released in any form useful to inform the breaches of the rules. It is recommended to leave the EXIF data in the submitted files intact in order to ease eventual investigations.

GLOBAL PHOTOGRAPHIC UNION - GPU (former UPI)

Is a worldwide interactive organization for anyone interested in photography, be they casual, serious amateurs or professional photographers.

Founded in Gairlo, The Netherlands, September 2007, GPU brings together professional and amateur enthusiasts of all ages and levels of achievement. As a nonprofit organization, its mission is to promote and enhance the art and science of photography in all its phases.

Individual members are offered a wide variety of activities: photo and digital competitions, photo exhibitions in different countries, study groups via mail, web site access, photo books, magazines, Photo festivals, distinctions, titles, and a raft of other activities.
