## FOREWARD FROM CHAIRMAN

Dear All,

Thanks for being a part of this Photolovers Prints Circuit, 2021. We have been organizing only International Circuits since last about 17 years but this year, we felt that there have been very few National Prints Salons and some friends and aspiring photo artists have not been able to apply for the FIP Honours' as they were not having required numbers of prints acceptances, hence to help such photo artists, we decided to organize a National Prints Circuit. With the help of FIP and the participants, we could achieve the objective and could nicely and timely conclude the Circuit.

### *Why prints?*

Each time you print a large sized photograph, every detail gets amplified. You can see whether there was good contrast, nice lighting and any defects become easy to see. This is in contrast to what happens when you post photos on social media sites like Instagram, Pinterest and Facebook. Most of these photographs are viewed on small screens that hide a lot of details. Printing your photographs makes you focus on taking better images with your camera. The fact that you will be able to see all the flaws clearly can motivate you to get it right from the start.

Digital has done wonders for our photography; it allows us to learn faster, it gives us technological opportunities that we could have only wished for in the "film" days and it has made completely new styles of photography possible. There's no doubt that the digital shift has been a positive one.

While we embrace all of this change that digital has brought and explore the new depths of technology, I think it's important to keep one foot in the "analog" world, at least one area – the physical print.

Printing as a medium is one of the most meaningful ways that you can enjoy photography.

Besides the nostalgia, there are emotional and logical reasons also for enjoying the printed image. A print will always be the most realistic representation of an image as it is the only medium that is truly tangible and actual. This will ultimately be the best way to judge your work. It's easier to judge an image when it's printed – you can examine it closer, look at it longer, and see it in different contexts.

I express my sincere thanks to Dr. Barun Sinha, Hon. Secy. Gen., FIP and FIP office who helped us at every stage of organizing this Circuit. I am grateful to all the participants and all the judges who made this Circuit successful. I also express my thanks to Shri Siddhartha De web master for his work and support. I am also thankful to Shri Anurag Badoliya and his team for their untiring support in handling the prints.

Enjoy your photography, will be looking forward to see you in our next event.

**Sudhir Saxena**

**ARPS, EFIAP/g, EFIP/G, EFIP/g-nat, Hon.FICS**

**Circuit Chairman**

## Jury List

S.N.	NAME OF JURY	SECTIONS
